

Hong Kong Physiotherapy Association

DIRECT ACCESS Forum

**JAN 27, 2022 (THURSDAY)
6:30PM - 8:30PM (HONG KONG TIME)
VIA ZOOM**

It is highly likely that a proposal on direct access will be deliberated and discussed in PT Board and Supplementary Medical Professions Council meetings in the first half of 2022. Thus, it is very important to obtain the views from the physiotherapy community on various key aspects of direct access and have some consensus building at this stage. This online forum is intended to provide a platform for physiotherapist colleagues to express their views on the following key issues surrounding direct access.

1. Full direct access Vs direct access with conditions (e.g., scope of service)
2. Insurance coverage and premium
3. Mandatory CPD
