ANNUAL REPORT OF PRESIDENT 2019-2020

Prof. Marco Y.C. PANG

This annual report provides a summary of the HKPA activities that took place between Jul 2019 and Jun 2020.

Executive Summary

The HKPA Executive Committee election took place in Nov 2019 and it is my honor to assume my second term as the HKPA President. A new Executive Committee was elected, with a mix of new and old members.

This past year was a challenging one. Following the social unrest in the second half of the year of 2019, we were faced with the COVID-19 pandemic starting in Jan 2020, which is still affecting us today. As a result, a lot of the activities originally scheduled to take place during the reporting period were postponed. One of the important activities, WCPT-AWP Regional Congress cum HKPA Conference 2020, was tentatively postponed to the year of 2022, depending on the decision of the WCPT-AWP Executive Committee after assessing the situation in Hong Kong at the end of this year.

We had continued in our efforts to increase our visibility in the general public. During the COVID-19 pandemic, the HKPA had launched a series of initiatives to donate masks and sanitizers and distribute exercise pamphlets to the older adults and people with disability. We had also established a long-term collaboration with Ming Pao, and gained a monthly full-page coverage on selected health topics relevant to physiotherapy. On average, HKPA appeared in the media at least once every 2 weeks in the past year.

The website revamping work continued in the past year, and it is expected that our brand new website will be launched in the latter part of 2020. The updated PT directory will also be incorporated into the new website. In the near future, one can join or renew HKPA membership using our website and make online payment.

The financial status of HKPA remains very healthy, which is reflected in the Financial Report.

Finally, I would like to express my sincere gratitude to Dr. Patrick L.T. WONG J.P. as our Honorary Auditor, and Mr. Bronco M.T. BUT as our Honorary Legal Advisor for their contribution to our Association. Thanks to all Executive Committee members of the HKPA and also the Chairpersons and Executive Committee members of the Specialty Groups and Working Groups for their dedication and hard work.

I count on your continuous support to HKPA, and look forward to a healthier and more fruitful year ahead.

Executive Committee Meetings

The Executive Committee held a total of 3 meetings during the report period (10 Aug 2019, 9 Nov 2019, 13 Jun 2020). The meeting in Jun 2020 was held online due to the COVID-19 pandemic.

Signature Events

A series of events were conducted in response to the COVID-19 pandemic. These activities aimed to donate masks and sanitizers to the needy, at a time when these items were in high demand. We also distributed exercise pamphlets to emphasize the importance of exercise to boost immunity in the combat against the COVID-19. We had been able to reach out to many needy people in their own communities. Our initiatives had also attracted media attention. In addition to attending to the needs of the general public, we also paid painstaking efforts in acquiring surgical masks and sold them to HKPA members at a discounted price. All these activities involved volunteers from physiotherapists across different sectors (NGO, HA, private practice and students). Overall, these activities had achieved what we intended to accomplish as described in our motto “Uniting Physiotherapists, Advancing Practice, Enhancing Health”.

ANNUAL REPORT OF PROFESSIONAL DEVELOPMENT SUBCOMMITTEE 2019-2020

Ms. Mandy M.Y. MAK

The Professional Development Subcommittee is responsible for overseeing the professional development activities of the Hong Kong Physiotherapy Association (HKPA). Its main functions include holding the annual Specialty Groups (SG)/Working Groups (WG) Meeting with the chairpersons and executive committee members of SG/WG to discuss issues related to the planning and organization of professional development activities of HKPA.

A. Annual SG/WG Meeting and Spring Dinner

The 17th SG/WG meeting (2020) was held on 18 Jul 2020 under the pandemic of Covid-19. For keeping the social distancing, an online meeting was conducted this year. Moreover, the HKPA spring dinner gathering was suspended. A reporting template for the representative of SG attending the Subgroup meeting under World Physiotherapy (formerly named as World Confederation for Physical Therapy) was endorsed and this can facilitate the reporting procedure and keep our members the updated information from World Physiotherapy.

B. Training Courses

1. Workshops on Orthopaedic Rehabilitation in Greater Bay Area

The HKPA was invited by the Association of Hong Kong Health Care Professionals to deliver three workshops on orthopaedic rehabilitation for the Chinese nurses and therapists of the Greater Bay Area of China. Ms. CHAN Chun Fai, Roselyn was invited as the instructor. The workshops were conducted successfully on 27th to 28th Apr 2019 at Guangzhou Orthopedic Hospital, on 3rd to 4th Aug 2019 at Huadu District People's Hospital at Guangzhou and on 7th to 8th Dec 2019 at Guangdong Provincial Hospital of Chinese Medicine.

2. Certificate Course in Manual Therapy

The HKPA organized the Certificate Course in Manual Therapy in collaboration with the Manual Concepts of Australia. Dr. Toby Hall, Dr. Kim Robinson and Mr. Vaidas Stalioraitis were invited to deliver a 15-day Certificate Course in Manual Therapy on 7th to 11th and 28th to 30th Jun, 1st to 2nd Jul, and 7th to 11th Aug 2019. All the workshops were successfully conducted.

C. Continuing Professional Development Scheme

The Continuing Professional Development (CPD) program has been providing our members an assorted and extensive learning opportunity from basic knowledge to specialized skills.

In the last year, there were 258 courses accredited in our CPD scheme. The total contact duration of the all accredited CPD activities was 6305 hours (Table 1). Under the influence of Covid-19 pandemic, the total number of accredited CPD activities was reduced. Some of the activities were postponed or even cancelled. Online programs became a new delivery model. Therefore, our members could still enjoy their learning opportunities under this health crisis.

The details of accreditation were summarized as follows:

Table 1. CPD Points and Total Course Duration of Courses from 2015-16 to 2019-2020

Cycle Year	Number of Course Accredited	CPD Points Granted	Total Course Duration (Hour)
2015-2016	326	5102	8989
2016-2017	312	4049	8594
2017-2018	283	6494	10931
2018-2019	354	5054	8699
2019-2020	258	3525	6305

D. Acupuncture Accreditation Scheme

The Acupuncture Accreditation Board of the HKPA was established in 1999 with the intent to uphold the standard of acupuncture practice by physiotherapists and to assure related quality of service delivered to clients. From Aug 2019 to end of Jul 2020, there were 102 registered physiotherapists accredited by the Acupuncture Accreditation Board. Among these 102 registered physiotherapists, 57 were members of the HKPA.

Acknowledgement

We would like to thank the Professional Development Subcommittee members in supporting the work done in the past year. Finally, we express our heartfelt gratitude to the President of HKPA, Prof. Marco PANG and executive committee members for their support and guidance to the work of the Professional Development Subcommittee.

Electronic Direct Mail System and Social Network System

We have successfully established an Electronic Direct Mail (eDM) System since 2012 which is more effective and environmental friendly than traditional post office mail. Moreover, we also established a Social Network communication channel through Facebook. The news broadcasted through eDM and Facebook should take place regularly. We have over 90% of members willing to provide email address for eDM purpose. With response to the post in Facebook, the hit rate ranged from a few hundreds to about six thousands.

Electronic Physiotherapist Directory

Since Apr 2013, HKPA launched Electronic Physiotherapist Directory (ePTD: http://www.hongkongpa.com.hk/search_physio.html) in order to provide online search of physiotherapy service in Hong Kong for local service users. The ePTD contained **more than 420 records** of Hong Kong Registered Physiotherapists and it will be continuously updated and enriched. For physiotherapist colleagues who would like to share their information for public access, they should complete the data collection form (http://www.hongkongpa.com.hk/Download/20130824_Data_Collection_Form.pdf) and return it to Mr. Brian MA (physio.brian@gmail.com) for data processing.

In order to optimize the searching platform in the directory, a new phase of data collection has been done in the past year. The new search platform will be launched with our new website.

Income from HKPA Website and Email Advertisement

Website and email advertisement was another source of income with an amount of \$8,000 earned in 2019-2020.

Period	Sponsors	Income
Aug 2019	Asia Medical Hong Kong	HK\$2,000
Sep 2019	Pro-Med	HK\$4,000
Feb 2020	Asia Medical Hong Kong	HK\$2,000

Revamp of the Website

The revamp of HKPA current website is progressing steadily. The English version of the new website will be launched very soon. Online registration and payment are expected to be included in the future. We look forward to meeting you with new face soon.

Year 2019/2020 has been a difficult year for all of us because of the social unrest and COVID-19. Luckily, after deferment for several times, a number of times, we were still able to arrange one face-to-face “Certificate Course of Breakaway Techniques” on 4 Jan 2020. This course enabled participants to master the appropriate and effective techniques of physical interventions when imminent threat or violence occurred. Through lectures, practical sessions and case discussions, participants were able to learn and apply specific techniques based on legally defensible approaches. After the course, all the participants have developed basic competencies in response to assaultive behaviors using breakaway techniques, which is useful to prevent injury at work.

Regarding the new initiative from government about the work injury management system, during the entire year, on behalf of HKPA, representatives from OSHRSG continued to have meetings with different parties including Labour Department and legislative council members.

In the coming year, OSHRSG will continue to focus on the practical aspect of occupational safety and health as well as explore more opportunities for collaborating with other speciality groups and inviting foreign speakers to share their expertise and experience in implementation through the online or face-to-face platform.

We look forward to seeing you again!

The Way Forward

The aim of PSG of HKPA is to connect the paediatric physiotherapists in Hong Kong. To facilitate the communication between colleagues from hospital to school setting so as to bridge the gap in physiotherapy service for children, we keep on organizing education and training to the paediatric physiotherapists. Due to the COVID-19, we have to defer our plan in community service for school this year. However, we have conducted our first online training for members with good response. Moreover, we keep on providing public education and promotion of our profession through writing articles in newspaper media. We believe PSG and all our members will continue our goal in promoting paediatric physiotherapy service in Hong Kong.

ANNUAL REPORT OF SPORTS AND EXERCISE SPECIALTY GROUP 2019-2020

Mr. Alex H.Y. HO

Summary of the SG Activities:
