Annual Report of President 2022-2023

Prof. Marco Y.C. PANG

This annual report provides a summary of the HKPA activities that took place between April 2022 and March 2023.

Executive Summary

The COVID-19 pandemic was still affecting us in the year of 2022. Many of the meetings and seminars were held in an online mode. With the social distancing measures were lifted in early 2023, more face-to-face activities were conducted.

We are very proud to have hosted the World Physiotherapy Asia Western Pacific Regional Congress in June 2022. Despite that the event was held in an online mode, it was a hugely successful event with 545 registrants from 32 countries/territories. The event had provided an excellent opportunity to us to showcase the high-quality physiotherapy research, education and clinical service in Hong Kong to colleagues and students from other parts of the world.

The year of 2023 marks the 60th Anniversary of HKPA. A Launching Ceremony was held in January 2023 to kick-start our year-round of celebratory activities, including monthly public lectures and the 60th Anniversary Conference.

One major task achieved in the reporting year was the review of the Memorandum & Articles of Association (M & A) of HKPA. An external consultant, Ms. Margaret Grant, was hired to independently review our M & A, conduct engagement sessions to obtain views from HKPA Executive Committee, Specialty Group leaders and HKPA members. Amendments to the M & A were made accordingly to ensure good governance and reduce the risk on HKPA. The revised M & A was subsequently approved by our members at the Extraordinary General Meeting in March 2023.

Regarding direct access, HKPA has been playing an important role in preparing the direct access proposal, which was submitted to the Physiotherapists Board in late 2022, and then deliberated at the Supplementary Medical Professions Council Meeting (SMPC) in early 2023. It is hoped that the general public can have direct access to physiotherapy service very soon.

I am pleased to report that the membership continued to increase over the past year, which exceeded our previous record. The Finance Report also showed a significant increase in asset over the past financial year.

I would like to thank Mr. Patrick L. T. WONG as our Honorary Auditor, and Mr. Bronco BUT as our Honorary Legal Advisor for their contribution to our Association. I would also like to acknowledge the tremendous hard work of all Executive Committee members of HKPA and also the Chairpersons and Executive Committee members of the Specialty Groups. Their efforts have truly made HKPA a stronger and cohesive physiotherapy community.

Executive Committee meetings

The Executive Committee held a total of 3 meetings during the report period (24 Aug 2022, 17 Dec 2022, 25 March 2023). Mr. Francis CHAN was co-opted as a member of HKPA EC in replacement of Mr. Calvin WONG on XXXX. Mr. Jeffrey MAN was co-opted as a member of HKPA EC in replacement of Ivan YEUNG on 21 Feb 2023.

Annual Report of Professional Development Subcommittee 2022-2023

Ms. Horsanna P. Y. CHIU

The Professional Development Subcommittee is responsible for overseeing the professional development activities of the Hong Kong Physiotherapy Association (HKPA). Its main functions include holding the annual Specialty Group Meeting with the chairpersons and executive members of specialty groups (SG) to discuss issues related to the planning and organization of professional development activities of HKPA.

A. Annual Specialty Group Meeting

The 20th SG / WG Meeting was jointly held with HKPA EGM 2023 at the Hong Kong Metropolitan University on 25 March 2023. In the meeting, World Physiotherapy (formerly named as World Confederation for Physical Therapy) subgroups membership joined by HKPA and subgroup activities were reported.

B. Training Courses

International Schroth Three Dimensional Scoliosis Therapy (ISST) Certification Course for Physiotherapists:

ISST is a famous and worldwide technique originated from Germany which is useful and effective to prevent and correct the spinal curve for scoliosis patients. HKPA had conducted two certificate courses for physiotherapists in June and August 2023 respectively. We have invited Dr. Avis Leung (DPT, ISST instructor) from United States and Ms. Mandy Lui (RPT, ISST instructor assistant) to deliver the courses. Overwhelming response was received from local and overseas applicants.

C. Continuing Professional Development Scheme

The Continuing Professional Development (CPD) program has been providing our members an assorted and extensive learning opportunity from basic knowledge to specialized skills.

Last year, a total of 236 courses were accredited in our CPD program. The total CPD points granted and total contact duration of all accredited CPD activities were 4555 points and 7314 hours correspondingly (Table 1). Of which, there were 199 CPD activities being sub-categorized as core, comprising 84% of all CPD activities (Figure 2). There was a wide spectrum of specialty coverage of those CPD activities (Figure 3). With the gradual improvement in the epidemic situation, more CPD activities returned to face-to-face education. Meanwhile, some CPD activities adopted a hybrid teaching mode as a new-normal. Therefore, our members could enjoy learning opportunities from different training institutes and academic organizations.

Cycle Year	Number of Course Accredited	CPD Points Granted	Total Course Duration(Hour)
2018-2019	354	5054	8699
2019-2020	258	3525	6305
2020-2021	273	3063	6032
2021-2022	240	3301	5478
2022-2023	236	4555	7314

Table 1. Details of CPD accreditation

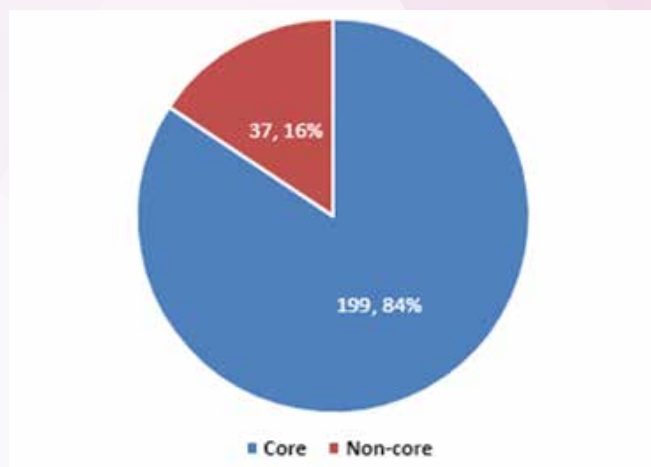

Figure 2. Sub-categories of CPD activities in 2022-2023.

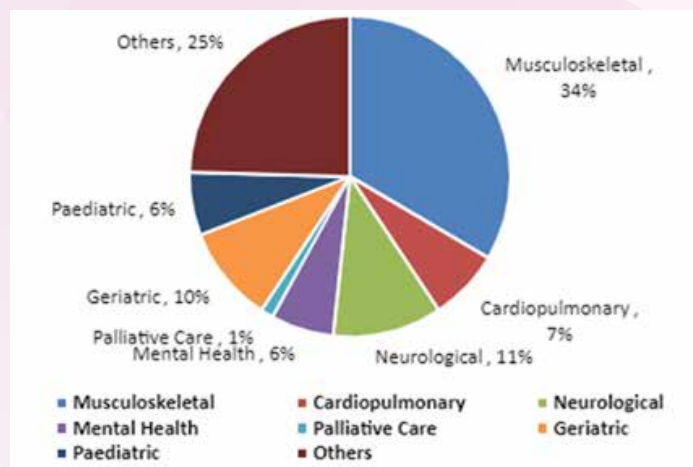

Figure 3. Primary specialty streams of CPD activities in 2022-2023.

D. Acupuncture Accreditation Scheme

The Acupuncture Accreditation Board of the HKPA was established in 1999 with the intent to uphold the standard of acupuncture practice by physiotherapists and to assure related quality of service delivered to clients. From April 2022 to March 2023, there were 87 registered physiotherapists accredited by the Acupuncture Accreditation Board. Among these 87 registered physiotherapists, 51 were members of the HKPA. As more graduates from different institutions proving physiotherapy training are expecting in the coming years, the number of Acupuncture Accreditation is expected to increase accordingly.

Acknowledgement

We would like to thank the Professional Development Subcommittee members in supporting the work done in the past year. Finally, we express our heartfelt gratitude to the President of HKPA, Professor Macro PANG and executive members for their support and guidance to the work of the Professional Development Subcommittee.
